

MENTAL HEALTH & WELFARE FOUNDATION

Grooming Souls

Platform Guide

A plain-English walkthrough of everything the website and admin panel can do — and how they work together.

What you have

Two connected parts: a **public website** that anyone can visit, and a private **admin panel** where your team controls what the website shows. You change something in the admin, and it appears on the website — no developer needed.

In one sentence: The admin panel is the “control room”. Whatever your team adds there (a therapist, a course, an achievement, a book...) is saved in the database and shown to visitors on the website automatically.

The website at a glance

AREA	WHAT IT'S FOR
Home	The main story — who you are, the founder, the team, achievements, the founder's book, and trust signals.
Therapy	Browse verified psychologists and book a confidential session.
Free Tests	5 clinical-grade psychometric tests visitors can take for free.
Academy	Paid psychology courses (Class 11–12, CUET-UG, CUET-PG, NET-JRF).
Diploma	Certified diploma courses with a hard-copy certificate posted to the student.
Books	The founder's published book(s) with a “Buy on Amazon” button.
About / Contact	Foundation information, policies, and how to reach you.

The home page, top to bottom

The home page is a guided story. Each band below is a section a visitor scrolls through — most of them are filled from the admin panel.

#	SECTION	WHAT IT SHOWS	EDITABLE IN ADMIN?
1	Hero	"Transforming Minds, Nurturing Souls" + illustration + "Book a session".	Fixed design
2	More Than Care	About the foundation + impact numbers.	Fixed copy
3	Founder's Corner	Founder photo, message, Vision & Mission.	YES
4	Achievements	Founder's awards & milestones as cards.	YES
5	Featured Book	The founder's book + "Buy on Amazon".	YES
6	Rooted in Values	Compassion · Integrity · Growth · Inclusivity.	Fixed copy
7	What We Offer	Six service cards (therapy, academy, diploma...).	Fixed copy
8	Real People, Real Change	Impact stats band.	Fixed copy
9	Our Expert Team	Team members with filter tabs & profiles.	YES
10	A Wall of Trust	Advisory panel of senior psychologists/doctors.	YES
11	Footer	Links, contact, social media, legal.	Social links editable

Good to know: Sections marked **YES** pull their content live from the admin. Add a team member or an achievement and it appears here instantly — the rest is polished, fixed design.

The other pages

THERAPY

Browse & book therapists

Visitors see verified psychologists (photo, specialty, fee) and send a booking request — no online payment, just a conversation. Requests land in the admin as **Therapy Leads**.

FREE TESTS

5 psychometric tests

Big Five personality, cognitive aptitude, stress, emotional intelligence, and sentence completion — 134 questions total. Results are saved in the admin as **Test Submissions**.

ACADEMY & DIPLOMA

Paid courses

Course cards with cover image, price, and access period. Students pay by scanning a UPI QR and uploading the receipt; the admin approves it and unlocks the videos.

BOOKS

Founder's books

A dedicated page listing the founder's book(s) with cover, description and a "Buy on Amazon" button. The newest one is also featured on the home page.

STUDENT AREA

Dashboard & lessons

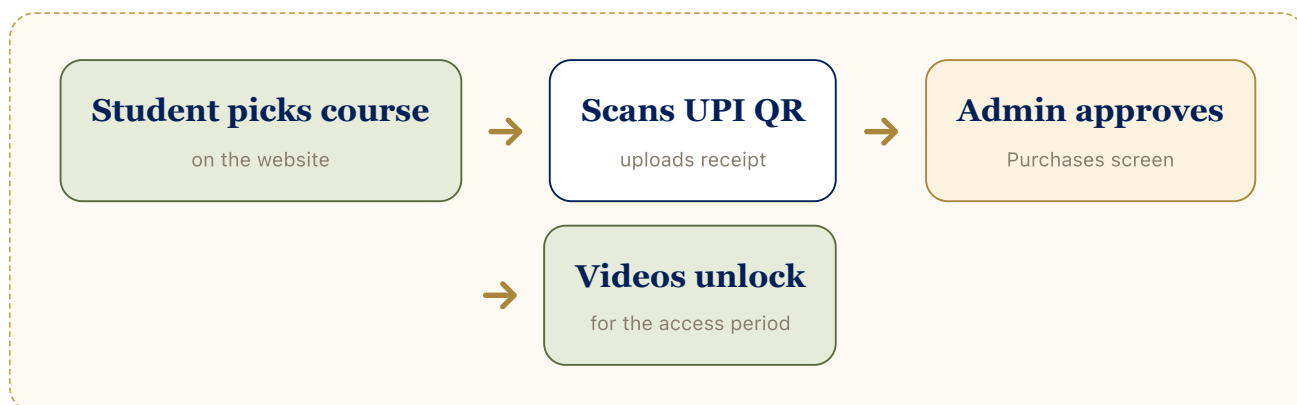

After a purchase is approved, students log in to watch their course videos (protected player) until the access period ends.

TRUST

About, Contact, Policies

Foundation details, contact information, and Privacy / Terms / Refund pages for credibility and compliance.

How a course purchase works

Your control room

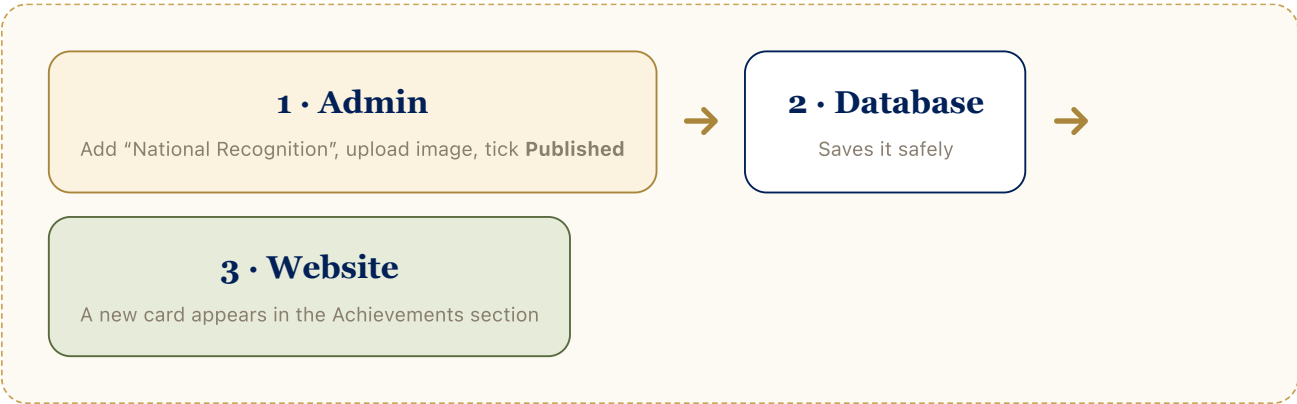

Log in at **groomingsouls.com/admin**. Everything is organised into simple screens. Here's what each one does.

SCREEN	WHAT YOU MANAGE	SHOWS ON WEBSITE AT
Dashboard	Key numbers at a glance (leads, submissions, purchases).	—
Therapists	Add/edit psychologists — photo, specialty, fee.	Therapy page
Core Team & Founder	Team members, categories, the founder's photo & message.	Home — Team & Founder
Advisory Panel	Senior advisors with specialty & role.	Home — Wall of Trust
Founder Achievements NEW	Awards & milestones with image, year, description.	Home — Achievements
Books NEW	Founder's books — cover, details, Amazon link.	Home & /books
Courses & Lessons	Create courses, upload cover image & lesson videos, set price.	Academy / Diploma
Therapy Leads	Booking requests from visitors.	—
Test Submissions	Results of the free psychometric tests.	—
Purchases & Receipts	Approve payments & unlock courses.	Unlocks student area
Certificate Queue	Track hard-copy diploma certificates to post.	—
Staff & Roles	Invite staff; interns get limited access.	—

Roles: **Admin** can do everything. **Intern** can only see Therapy Leads & Test Submissions — safe for helpers without giving away full control.

You edit here → it shows there

The single most important idea: the admin and website are always in sync. A simple example with an achievement:

The same pattern applies everywhere:

WHEN YOU...	...VISITORS IMMEDIATELY SEE
Add a team member + photo	A new card in "Our Expert Team".
Add an achievement	A card in the Achievements section.
Add a book + cover + Amazon link	Featured book on home + a card on /books.
Upload a course cover image	The course card shows that image (else a colour).
Toggle something to Draft	It disappears from the website (kept in admin).

The **"Published / Draft" switch** is your on/off control. Draft = hidden from visitors but saved. Published/Live = visible on the website.

How to do the common things

Log in

- 1 Go to **groomingsouls.com/admin**
- 2 Enter the admin email and password
- 3 You land on the Dashboard — pick a screen from the left menu

Add a founder achievement

- 1 Left menu → **Founder Achievements** → **Add achievement**
- 2 Fill Title, Year, Type, Description; upload an image
- 3 Keep **Published** on → **Save**. It's now on the home page.

Add / update a book

- 1 Left menu → **Books** → **Add book**
- 2 Enter title, author, the **Amazon link**, description; upload the cover
- 3 **Save** → it's featured on the home page and on the /books page.

Add a course with a cover image

- 1 Left menu → **Courses & Lessons** → create the course, then open it
- 2 In "Course cover", upload a **cover image** (or leave a colour)
- 3 Add modules & upload lesson videos → set price → save.

Where it lives

A short, non-technical summary of the setup — handy to keep on file.

ITEM	DETAIL
Website address	https://groomingsouls.com (secure — the padlock  in the browser)
Admin address	https://groomingsouls.com/admin
Hosting	Amazon Web Services (AWS) cloud server in Mumbai
Security	Free auto-renewing SSL certificate (the https:// lock)
Code backup	Stored safely on GitHub; the live site is rebuilt from it
Data	All content in a PostgreSQL database on the same server

One reminder for the tech team: attach a fixed “Elastic IP” in AWS so the address never changes, and keep taking database backups. These are one-time setups worth doing before heavy traffic.

Recently added features

Founder Achievements

Awards & milestones, admin-managed, shown on the home page.

Founder Books

Book showcase + Amazon buy link; featured on home and on /books.

Course Cover Images

Upload a thumbnail per course; colour fallback kept.

Real Team Profiles

Actual team photos & bios, with filter tabs and profiles.
