Grooming Souls — Today's Updates

1

The founder's book “*Unseen Minds and Hidden Souls*” is now featured on the home page and on a dedicated **/books** page, each with a “**Buy on Amazon**” button. Title, cover and description were taken from the Amazon listing.

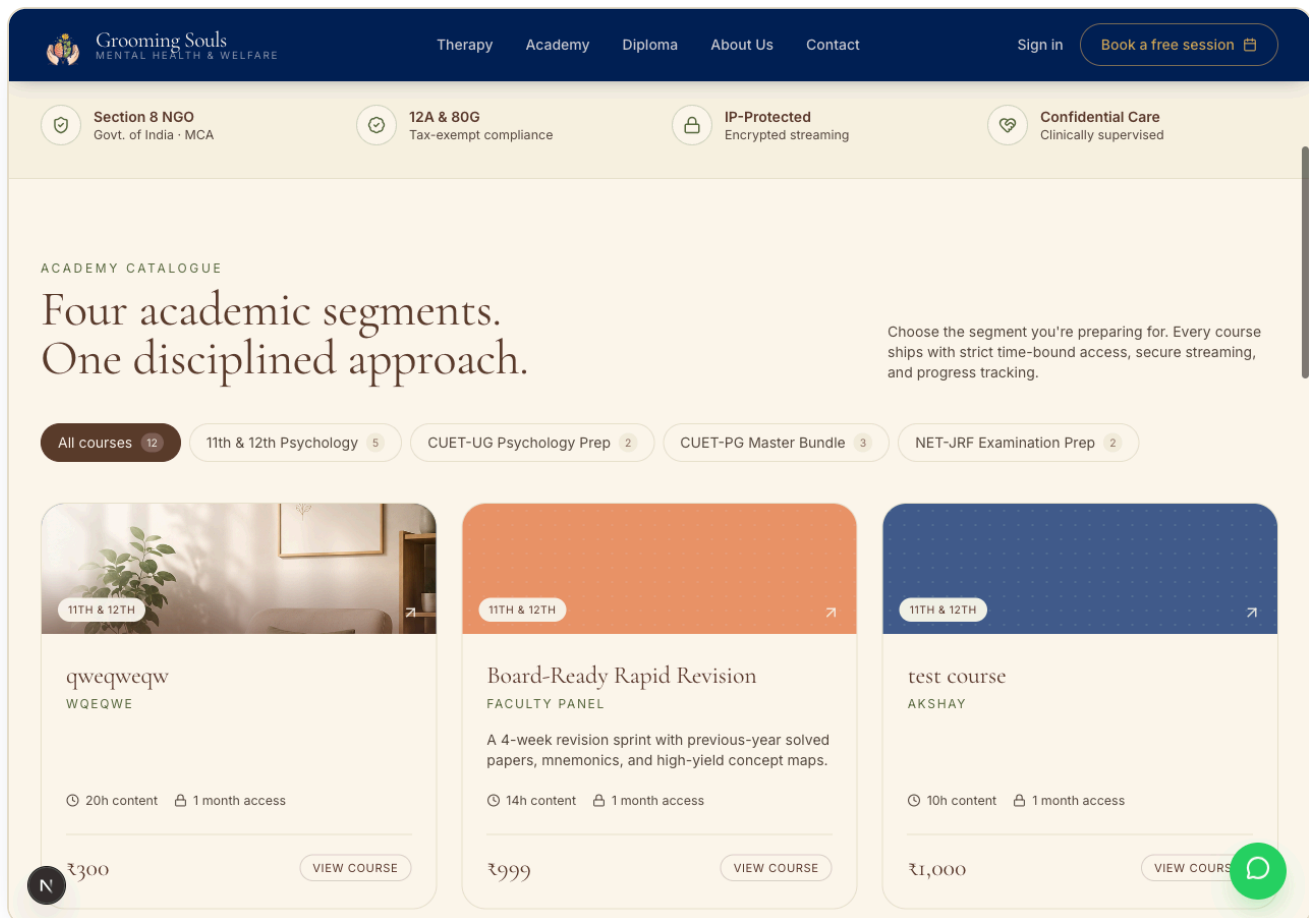

ON THE WEBSITE — the “Published Work” band on the home page, with the real cover and a Buy on Amazon button.

IN THE ADMIN — Admin → Books: cover upload, title, author, format, Amazon link, description, published toggle.

Also added: a footer link **“Founder's Books”** → the /books page, which lists every published book.

Courses can now have a **cover image (thumbnail)** instead of only a colour. Upload a photo in the admin and it becomes the card image on the Academy/Diploma pages. No image? It falls back to the colour — nothing breaks.

ON THE WEBSITE — the first course now shows an uploaded **IMAGE**; the others use the **COLOUR FALLBACK**.
